School of Rock is the largest music education company in the world. Each year we teach tens of thousands of students around the globe. Our mission is to transform students’ lives through the music they love.

Our approach is based on performance, meaning we teach by getting participants performing together. This method results in creating an incredible musical experience.

BECOME A MUSICIAN WITH SCHOOL OF ROCK

Looking for that amazing punctuation to your meetings, incentives, conventions and events (MICE) planning? School of Rock offers unique Rock ‘n’ Roll experiences that will have your attendees performing together in a real band.

Imagine your attendees working together to solve problems, build team cohesion, and practicing communication all while learning to play musical instruments together. School of Rock will work with your organization to create a custom music experience that will turn them into musicians.
MUSICAL EXPERIENCES WE PROVIDE

GUITAR

Turn your attendees into guitarists. School of Rock can create a custom experience to teach your attendees how to play the six-stringed instrument. We’ll use our famous teaching methodology to teach songs and even get guests playing in front of each other. It’s a challenging and fun time that will leave your guests wanting more.

SINGERS

Time for your guests to bring their karaoke skills on stage. During this experience attendees will work with a vocal instructor to learn basic singing techniques. They’ll then apply those techniques on a classic rock song and perform as the lead singing in a real band.

FULL BAND

Ever dream of playing in a band in front of a real audience? You can make this a reality for your guests with our Full Band Experience. During this experience, your attendees will select an instrument and work with an instructor to learn their part of a classic rock song. Then they’ll be paired up to form bands, and will each take turns performing in front of the other guests.
